01 Project Overview

This project translates the supplied editorial references into a premium Cif carousel system. The design uses warm neutral space, Cif green, refined typography and product led imagery to create a polished lifestyle driven campaign.

The creative goal was to make everyday cleaning feel more aspirational. Rather than presenting the products as isolated household items, the layouts place them within a fresh, contemporary visual world that communicates cleanliness, care, confidence and comfort.

Challenge	Create a cohesive premium campaign from the supplied Cif product references.
Objective	Develop five independent carousel slides that also work as one visual story.
Audience	Modern consumers who value effective cleaning, freshness and an attractive home environment.
Visual Direction	Editorial photography, generous negative space, Cif green, elegant type and natural lifestyle cues.

03 Creative Approach

Brand colour. Cif green is the primary recognition colour, supported by cream, white and soft neutral tones so the brand remains distinctive without overpowering the photography.

Typography. Large editorial display lettering creates a premium magazine feel, while restrained supporting copy keeps the message readable and structured.

Image direction. Product beauty shots, lifestyle moments, natural elements and soft lighting create a warmer emotional layer while keeping the products visually important.

Composition. Each slide uses a clear hierarchy of image, headline, supporting copy and navigation, with generous negative space to maintain a sophisticated feel.

The overall system was designed to make Cif feel clean, modern, premium and lifestyle relevant.
